BOTOX® Cosmetic (onabotulinumtoxinA) Important Information

IMPORTANT SAFETY INFORMATION

BOTOX® Cosmetic may cause serious side effects that can be life threatening. Get medical help right away if you have any of these problems any time (hours to weeks) after injection of BOTOX® Cosmetic:

• **Problems swallowing, speaking, or breathing, due to weakening of associated muscles, which can be severe and result in loss of life. You are at the highest risk if these problems are preexisting before injection. Swallowing problems may last for several months.**

• **Spread of toxin effects. The effect of botulinum toxin may affect areas away from the injection site and cause serious symptoms, including loss of strength and all-over muscle weakness, double vision, blurred vision and drooping eyelids, hoarseness or change or loss of voice, trouble saying words clearly, loss of bladder control, trouble breathing, and trouble swallowing.**

BOTOX® Cosmetic dosing units are not the same as, or comparable to, any other botulinum toxin product.

There has not been a confirmed serious case of spread of toxin effect when BOTOX® Cosmetic has been used at the recommended dose to treat frown lines, crow's feet lines, forehead lines, and/or platysma bands.

BOTOX® Cosmetic may cause loss of strength or general muscle weakness, vision problems, or dizziness within hours to weeks of receiving BOTOX® Cosmetic. **If this happens, do not drive a car, operate machinery, or do other dangerous activities.**

Serious and/or immediate allergic reactions have been reported, including itching, rash, red itchy welts, wheezing, asthma symptoms, or dizziness or fainting. Get medical help right away if you are wheezing or have asthma symptoms, or if you become dizzy or faint.

Do not receive BOTOX® Cosmetic if you are allergic to any of the ingredients in BOTOX® Cosmetic (see Medication Guide for ingredients); had an allergic reaction to any other botulinum toxin product such as Myobloc (rimabotulinumtoxinB), Dysport (abobotulinumtoxinA), Xeomin (incobotulinumtoxinA), Jeuveau (prabotulinumtoxinA-xvfts), Daxxify (daxibotulinumtoxinA-lann), or Letybo (letrabotulinumtoxinA-wlbg); or have a skin infection at the planned injection site. This list may not include all available botulinum toxin products.

Tell your doctor about all your muscle or nerve conditions, such as ALS or Lou Gehrig's disease, myasthenia gravis, or Lambert-Eaton syndrome, as you may be at increased risk of serious side effects, including difficulty swallowing and difficulty breathing, from standard doses of BOTOX® Cosmetic.

Tell your doctor about all your medical conditions, including surgery or plans to have surgery on your face, trouble raising your eyebrows, drooping eyelids, any other abnormal facial change, are pregnant or plan to become pregnant (it is not known if BOTOX® Cosmetic can harm your unborn baby), or are breastfeeding or plan to (it is not known if BOTOX® Cosmetic passes into breast milk).

Tell your doctor about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements. Using BOTOX® Cosmetic with certain other medicines may cause serious side effects. Do not start any new medicines until you have told your doctor that you have received BOTOX® Cosmetic in the past.

Tell your doctor if you have received any botulinum toxin, such as Myobloc, Dysport, Xeomin, Daxxify, or Letybo, have received the (tell your doctor exactly which product you received), have recently received an antibiotic injection, take muscle relaxants, take an allergy or cold medicine, take a sleep medicine, or take aspirin-like products or blood thinners.

Other side effects of BOTOX® Cosmetic include dry mouth, discomfort or pain at the injection site, tiredness, headaches and neck pain, swelling of eyelids, and dry eyes.

Approved Uses is a prescription medicine that is injected into muscles and used to temporarily improve the look of moderate to severe frown lines, forehead lines, frown lines between the eyebrows, and vertical bands connecting the jaw and neck (platysma bands) in adults.

For more information, refer to the Medication Guide or talk with your doctor.

To report a side effect, please call Allergan Aesthetics at 1-800-678-1605.

Please see BOTOX® Cosmetic full [Product Information](#), including Boxed Warning and [Medication Guide](#).

JUVÉDERM® Injectable Gel Fillers Important Information

APPROVED USES

JUVÉDERM® VOLBELLA® XC injectable gel is for deep injection in the cheek area to correct age-related volume loss, moderate to severe chin region to improve the chin profile, and for augmentation of the temple region to improve moderate to severe temple hollowing in adults over 21.

JUVÉDERM® VOLBELLA® XC injectable gel is also for injection into the lips and perioral area for lip augmentation in adults over 21.

JUVÉDERM®, VOLBELLA® XC injectable gel is for injection into the lips for lip augmentation and correction of perioral lines, and for injection into the under eye to improve the lips appearance of under eye hollowing in adults over the age of 21.

What are possible side effects of treatment? The most commonly reported side effects with JUVÉDERM® injectable gels are redness, swelling, pain, tenderness, firmness, and lumpiness.

These side effects are consistent with other facial fillers and will resolve within 30 days. Your doctor may choose to treat side effects persisting longer with antibiotics, steroids, or hyaluronidase (an enzyme that breaks down hyaluronic acid).

As with all skin injection procedures, there is a risk of infection.

To report a side effect with any product in the JUVÉDERM® Collection, please call the Allergan® Product Support Department at 1-877-345-5372. Please also visit [Juvederm.com](#) or talk to your Allergan® Product practitioner.

Double Points Terms and Conditions

• Members who purchase treatments with both BOTOX® Cosmetic (onabotulinumtoxinA) and at least one of any JUVÉDERM® to two fillers syringes of any JUVÉDERM® will earn an additional 200 bonus base loyalty points. SKINNIVE by JUVÉDERM® does not qualify as a JUVÉDERM® Collection of Fillers product.

• A member will earn standard Alle points on all other eligible purchases.

• The safety and efficacy of JUVÉDERM® VOLBELLA® XC injection into the chin, neck, or jaw has not been studied in patients with significant hair growth of the chin, neck, or jaw.

• Patients who experience skin irritation near the site of JUVÉDERM® VOLBELLA® XC injection may be at a higher risk for adverse events than those who do not experience skin irritation.

• Tell your doctor if you have already been injected with dermal fillers in the same area as the one(s) you are about to be treated for. This information helps your doctor decide when and whether you should get treatment.
