GLOW®**

Unlock *ultimate* customization

FOR EVERY SKIN CONCERN

Only DiamondGlow® pairs with clinically proven SkinMedica®
Pro-Infusion Serums to target the most common skin concerns.

Model is a DiamondGlow® patient.

BOTOX® Cosmetic Uses

BOTOX® Cosmetic (onabotulinumtoxinA) is a prescription medicine that is injected into muscles and used to temporarily improve the look of moderate to severe forehead lines, crow's feet, frown lines, and vertical bands connecting the neck and jaw in adults (platysma bands).

BOTOX® Cosmetic Important Safety Information

Talk to your doctor about BOTOX® Cosmetic and whether it's right for you. There are risks with this product—the effects of BOTOX® Cosmetic may spread hours to weeks after injection causing serious symptoms.

Please see additional Important Safety Information and QR code for Prescribing Information, including Boxed Warning, on the back cover.

DIAMOND GLOW[®]

BOTOX® Cosmetic Important Safety Information (continued)

Alert your doctor right away as difficulty swallowing, speaking, breathing, eye problems or muscle weakness can be a sign of a life-threatening condition. If this happens, do not drive a car, operate machinery, or do other dangerous activities. Patients with these conditions before injection are at the highest risk. Swallowing problems may last for several months.

Side effects may include allergic reactions, neck and injection-site pain, fatigue and headache. Don't receive BOTOX® Cosmetic if there's a skin infection. Tell your doctor your medical history, muscle or nerve conditions, and medications, including botulinum toxins, as these may increase the risk of serious side effects.

DiamondGlow® Important Information

Uses

The DiamondGlow® device is a general dermabrasion device that gently removes the top layer of skin and delivers topical cosmetic serums onto the skin.

DiamondGlow® Important Safety Information

The DiamondGlow® treatment is not for everyone. You should not have a DiamondGlow® treatment if you have compromised skin quality. Tell your provider if you are pregnant or lactating, or if you have any medical conditions, including allergies, and if you are using topical medications on the area to be treated.

Typical side effects include a scratchy, stinging sensation during the treatment and temporary tightness, redness or slight swelling after the treatment.

Rare serious side effects may also occur and include severe skin irritation and allergic reactions.

SkinMedica® Pro-Infusion Serums Disclaimer

SkinMedica® Pro-Infusion Serums are intended to meet the FDA's definition of a cosmetic product, an article applied to the human body to cleanse, beautify, promote attractiveness, and alter appearances. These products are not intended to be drugs that diagnose, treat, cure, or prevent any disease or condition. These products have not been approved by the FDA and the statements have not been evaluated by the FDA.

Please talk to your provider for additional information.

SkinMedica® Important Information

CAUTION: Do not use Even & Correct Dark Spot Cream or Retinol Complex if you are pregnant, lactating, or planning to become pregnant. Mild redness, peeling, and irritation are expected when using retinol products. Use a sunscreen and limit sun exposure while using these products and for a week following discontinuation.

Sunburn alert: Even & Correct Brightening Treatment Pads and Even & Correct Dark Spot Cream contain an alpha-hydroxy acid (AHA) that may increase your skin's sensitivity to the sun and particularly the possibility of sunburn. Use a sunscreen and limit sun exposure while using these products and for a week following discontinuation.

Use a sunscreen with an SPF of 30 or higher during any sun exposure when using Even & Correct Advanced Brightening Treatment.

Most SkinMedica® products are intended to meet the FDA's definition of a cosmetic product, an article applied to the human body to cleanse, beautify, promote attractiveness, and alter appearances. These SkinMedica® products are not intended to be drug products that diagnose, treat, cure, or prevent any disease or condition. These products have not been approved by the FDA, and the statements here have not been evaluated by the FDA.

SkinMedica® Acne Clarifying Treatment is an over-the-counter drug product which is formulated and marketed pursuant to the FDA's governing regulations set forth at 21 CFR Part 333 Subpart D.
