DIAMOND GLOW[®]

SKINMEDICA[®]

DiamondGlow[®] Important Information

Uses

The DiamondGlow[®] device is a general dermabrasion device that gently removes the top layer of skin and delivers topical cosmetic serums onto the skin.

DiamondGlow[®] Important Safety Information

The DiamondGlow[®] treatment is not for everyone. You should not have a DiamondGlow[®] treatment if you have compromised skin quality. Tell your provider if you are pregnant or lactating, or if you have any medical conditions, including allergies, and if you are using topical medications on the area to be treated.

Typical side effects include a scratchy, stinging sensation during the treatment and temporary tightness, redness or slight swelling after the treatment. Rare serious side effects may also occur and include severe skin irritation and allergic reactions.

SkinMedica[®] Pro-Infusion Serums Disclaimer

SkinMedica[®] Pro-Infusion Serums are intended to meet the FDA's definition of a cosmetic product, an article applied to the human body to cleanse, beautify, promote attractiveness, and alter appearances. These products are not intended to be drugs that diagnose, treat, cure, or prevent any disease or condition. These products have not been approved by the FDA and the statements have not been evaluated by the FDA.

Please talk to your provider for additional information.
