ABBREVIATED SAFETY INFORMATION (APPLY TO ALL CAPTIONS)

Correct age-related volume loss in the cheek area, improve the chin profile, and improve moderate to severe temple hollowing with JUVÉDERM® VOLUMA® XC; improve moderate to severe loss of jawline definition with JUVÉDERM® VOLUX® XC; add volume to improve the appearance of undereye hollows with JUVÉDERM® VOLBELLA® XC; add fullness to lips with JUVÉDERM® ULTRA XC and JUVÉDERM® VOLBELLA® XC; and smooth moderate to severe lines around the nose and mouth with JUVÉDERM® VOLLURE® XC and JUVÉDERM® ULTRA PLUS XC. The JUVÉDERM® Collection of Fillers are for adults over 21.

Important Safety Information

JUVÉDERM® is not for people who have a history of severe allergic reactions or allergies to any of its ingredients, including lidocaine. The effectiveness of removal of any dermal filler has not been studied. Tell your doctor if you have a history of scarring or taking medicines that decrease the body's immune response or that can prolong bleeding. Certain medicines and procedures may increase risk of infection, inflammation, bleeding, or bruising at the injection site. Common side effects include injection-site redness, swelling, pain, tenderness, firmness, lumps, bumps, bruising, discoloration, or itching. As with all fillers, there's a rare risk of unintentional injection into a blood vessel, which can cause vision abnormalities, blindness, stroke, temporary scabs, or permanent scarring. JUVÉDERM® products should only be injected by a licensed and trained specialist. There is a risk of infection with all skin injection procedures.

Talk to your licensed specialist and for additional information, including Important Safety Information, visit www.juvederm.com.

Correct age-related volume loss in the cheek area, improve the chin profile, and improve moderate to severe temple hollowing with JUVÉDERM® VOLUMA® XC; improve moderate to severe loss of jawline definition with JUVÉDERM® VOLUX® XC; add volume to improve the appearance of undereye hollows with JUVÉDERM® VOLBELLA® XC; add fullness to lips with JUVÉDERM® ULTRA XC and JUVÉDERM® VOLBELLA® XC; and smooth moderate to severe lines around the nose and mouth with JUVÉDERM® VOLLURE® XC and JUVÉDERM® ULTRA PLUS XC. The JUVÉDERM® Collection of Fillers are for adults over 21.

JUVÉDERM® is not for people who have a history of severe allergic reactions or allergies to any of its ingredients, including lidocaine. The effectiveness of removal of any dermal filler has not been studied. Tell your doctor if you have a history of scarring or taking medicines that decrease the body's immune response or that can prolong bleeding. Certain medicines and procedures may increase risk of infection, inflammation, bleeding, or bruising at the injection site. Common side effects include injection-site redness, swelling, pain, tenderness, firmness, lumps, bumps, bruising, discoloration, or itching.

As with all fillers, there's a rare risk of unintentional injection into a blood vessel, which can cause vision abnormalities, blindness, stroke, temporary scabs, or permanent scarring. JUVÉDERM® products should only be injected by a licensed and trained specialist. There is a risk of infection with all skin injection procedures.

Talk to your licensed specialist and for additional information, including Important Safety Information, visit www.juvederm.com.

Intended for US audiences only.
