

## Patient Photography For Social Media

### INSTRUCTIONS FOR USE

1. Download the patient photo and Important Safety Information image in .png format
2. Images must not be altered, filtered, or edited in any way (no cropping, color adjustments, overlays, or enhancements). Do not superimpose text, graphics, or emojis onto photos.
3. The *Natrelle®* Important Safety Information (ISI) frame must accompany each patient image. The ISI must remain intact, legible, and appear immediately following the image (eg., final slide in carousel).
4. These photographs are property of Allergan Aesthetics and are shared for educational use only.
