

## POST 9: The value of an experienced provider (:60-:90s)

HOST: Hey \_\_\_\_, why is it so important to find the right injector?

PROVIDER: Because you are putting your results, literally, in their hands. The right injector will help you choose the right treatments, in the right amounts, at the right time.

They can also help you avoid some of the pitfalls that can lead to unnatural looking results.

HOST: What are some of those pitfalls?

PROVIDER: Adding too much volume, too fast. Focusing on one area while ignoring overall facial balance. Demanding treatment you don't need. Expecting unrealistic results.

All of these can lead to overfilling and an unnatural look.

HOST: How do you avoid these issues?

PROVIDER: First, by having honest conversations with my patients about what Injectable Hyaluronic Acid Fillers can realistically achieve. And second, by being willing to say "no" to treatment when that treatment isn't going to help my patient meet their goals.
