

SKINMEDICA®

Evolution of *Innovation*

BOTOX® Cosmetic Indications

BOTOX® Cosmetic (onabotulinumtoxinA) is a prescription medicine that is injected into muscles and used to temporarily improve the look of moderate to severe forehead lines, crow's feet, frown lines, and vertical bands connecting the neck and jaw in adults (platysma bands).

BOTOX® Cosmetic Important Safety Information

Talk to your doctor about BOTOX® Cosmetic and whether it's right for you. There are risks with this product—the effects of BOTOX® Cosmetic may spread hours to weeks after injection causing serious symptoms. Alert your doctor right away as difficulty swallowing, speaking, breathing, eye problems or muscle weakness can be a sign of a life-threatening condition. If this happens, do not drive a car, operate machinery, or do other dangerous activities. Patients with these conditions before injection are at the highest risk. Swallowing problems may last for several months. Side effects may include allergic reactions, neck and injection-site pain, fatigue and headache.

Don't receive BOTOX® Cosmetic if there's a skin infection. Tell your doctor your medical history, muscle or nerve conditions, and medications, including botulinum toxins, as these may increase the risk of serious side effects.

The *science* of aging skin

Aging skin can be one of the most difficult concerns to address because it presents itself in a variety of ways, including:

- + Coarse wrinkles
- + Fine lines
- + Sagging skin
- + Uneven tone and texture

At SkinMedica®, we get to the source of aging skin—diminishing growth factors. This allows us to more effectively address the visible signs of aging.

For over 12 years, TNS Essential Serum®, our proprietary growth factor complex, has been providing patients with revitalized, healthy-looking skin. And now, we're taking it to the next level...

The *growth* *factor* authority

Our growth factors have revolutionized skincare and helped millions of people achieve healthier, younger-looking skin

- + SkinMedica® is the **most studied**,* the **most awarded**,⁺ and the **most respected** name in growth factor skincare and has been for **over 20 years**
- + SkinMedica® pioneered and patented the process of extracting stabilized and highly concentrated growth factors for use in topical skincare
- + Over **1.5 million** bottles sold

*Clinical studies and publications include the full portfolio of growth factor products, including SkinMedica® and Regenica®.

⁺From 2010 to 2022 for select SkinMedica® growth factor products only.

SKINMEDICA®

The next generation of *age-defying* skin

6 years younger

A third-party, validated psychometric scale revealed that patients felt they looked up to 6 years younger at 12 weeks.¹

- + Smooths visible coarse wrinkles and fine lines
- + Clinically proven to address sagging skin
- + Results starting in just 2 weeks¹
- + Progressive results measured up to 24 weeks¹

The *Advanced+* difference

Two powerful blends work together for our most comprehensive results.

- + Colorless
- + Fragrance-free
- + Lightweight, matte finish

RENESSENSCE (RSC) Advanced

+

TNS®-MR
